

ANNUAL REPORT 2023-2024

ALL-OPTIONS IMPACT REPORT

Celebrating 20 Years
of judgment-free support

A MESSAGE FROM OUR EXECUTIVE DIRECTOR

Twenty years ago, All-Options answered the very first call to our Talkline, and began our journey to become the nation's most trusted resource for people seeking support for pregnancy, parenting, abortion, and adoption. As we mark this milestone, I'm so pleased to share the All-Options Annual Report for Fiscal Year 2023-2024 with you!

To be candid, this has been one of the toughest years I can remember in my career. Two years after the *Dobbs* decision, abortion access has been decimated across the country, leaving pregnant people to overcome incredible obstacles to find abortion care. It has undermined the ability of providers to care for their patients in complex pregnancies and after miscarriages, and led to worse maternal and infant health outcomes and more families struggling to make ends meet — especially in states with abortion bans, like Indiana.

In the face of these challenges and increasing demand for our services, All-Options has also seen a dramatic loss of income over the past year. Many foundations and individuals stepped up to give money in the immediate crisis after *Roe* was overturned, but unfortunately many of those donations have not continued. Like so many of our fellow nonprofits, we've had to make painful budget decisions while also working to raise more funds and find a sustainable path forward.

We couldn't have made it through this year without all of you, our community of donors, volunteers, supporters, and friends. We are so grateful to be in this fight with you. I hope you'll enjoy this report and share our pride in all we have been able to accomplish — this year and these past two decades!

With hope & gratitude,

Parker

J. Parker Dockray, MSW
Executive Director

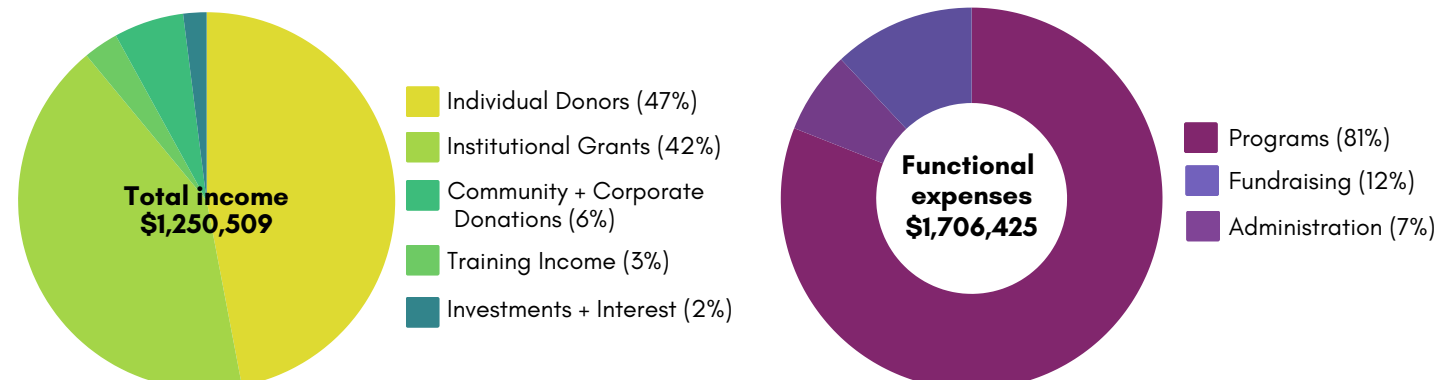

Support all the work you'll read about in this report with a donation to All-Options! Scan the code or give at www.all-options.org.

We can't do it without you!

FINANCIAL HIGHLIGHTS

This year we saw a significant drop in income from both individual donors and institutional grants, as post-Dobbs crisis funding began to dry up. Because of our reserves, we still ended the year with over \$1 million in assets, but we anticipate a lean year ahead. You can find our annual 990 tax returns on Guidestar, and we're happy to share detailed financial statements or answer any questions you may have!

FY 2023-2024

BY THE NUMBERS

NATIONAL PROGRAMS

**All-Options
Talkline**

1,359 calls answered
695 hours of support
35 volunteer Talkline
Advocates

CELEBRATING 20 YEARS OF JUDGMENT-FREE SUPPORT

In 2004, a small group of women with personal and professional experience with pregnancy, parenting, abortion, and adoption came together in Portland, Oregon with a vision of a new organization – one that would support people in ALL their options, decisions, and feelings. They created a nationwide Talkline, a toll-free number people can call from anywhere, to talk about all their feelings and experiences, and find support from peer counselors ready to listen, with no judgment, bias, or strings attached.

20 years later, All-Options has grown to a nationally distributed organization, with new programs and staff members across the country – but still grounded in the same vision of supporting people in ALL their options, decisions, feelings, and experiences. Take a journey with us through some of the highlights and challenges that have brought us to where we are today!

NATIONAL PROGRAMS

20 YEARS OF THE TALKLINE

To kick off celebrations for All-Options’ 20th anniversary, we brought together a group of Talkline Advocates from across the years to share their stories and reflections on the power of unconditional listening and understanding. Our National Programs Director, Taja Lindley, facilitated the conversation with a panel of Advocates who first joined the Talkline in Portland, Bloomington, and as part of our most recent nationwide cohort.

It’s clear that throughout the changes of the last two decades, the Talkline has consistently been a source of compassionate, judgment-free support that can transform lives — not only for our callers, but also for the Advocates who hold space for them.

It was truly a beautiful and inspiring event, and you can watch the conversation anytime on our YouTube channel!

CONVERSATION!

“[The Talkline Advocate] never once made me feel judged like I’ve felt by others... Most of all, she has been one of the only people who has ever acknowledged the gravity of what I had gone through, and validated how hard it must have been for me. I didn’t realize how much I needed that from someone before this conversation.”
—Talkline caller

NEW TRAININGS FOR CHALLENGING TIMES

In the wake of the *Dobbs* decision and abortion bans taking effect in nearly half of all US states, many more people are facing tough decisions about if and how they can still access abortion care, and what to do if they can’t. Our new self-paced training, *Offering Support When Abortion May Be Out of Reach*, is designed to help providers support pregnant people with compassion and resources as they navigate this landscape.

We are also excited to launch a new training in 2025 that will blend our signature Pregnancy Options Workshops and our Faith Aloud volunteer training, with tools and techniques for offering judgment-free spiritual support for all pregnancy decisions.

Learn more about all our trainings on the All-Options website!

INDIANA PROGRAMS

COLLABORATING ACROSS THE MIDWEST

After over a year of legal battles, Indiana’s abortion ban took effect in August 2023. In the months that followed, we saw far fewer calls to our Hoosier Abortion Fund. It was heartbreaking, because we knew people still needed care — they just didn’t know where to turn or what was legal.

Anti-abortion misinformation and fear tactics are rampant across the Midwest. Wherever you live, chances are you’ve seen plenty of billboards with messages shaming people who are considering or seeking abortion. In Indiana, these billboards are often found lining the highways Hoosiers take to access abortion in neighboring states. When someone is forced to leave their state in order to get necessary care, the last thing they should encounter is further stigma. That’s why in the spring of 2024, All-Options and our Hoosier Abortion Fund joined Chicago Abortion Fund and WMF Wisconsin to launch a compassionate billboard campaign across Illinois, Indiana, and Wisconsin. Our message was simple: In the heartland, we support each other, and abortion funds are here for you.

We were so proud to push back against abortion stigma and let Hoosiers know they’re not alone. You can see more from the campaign at heartlandabortionfunds.org!

“I’m doing well, and I’m at peace with my decision. I’m very glad that I reached out to All-Options. The relief of financial burden and the accompanying stress allowed me to focus on my mental and emotional health.”
—Hoosier Abortion Fund client

“I love y’all so much! Y’all have been an amazing gift to my little family. You are officially a part of my little family too ❤️❤️❤️”
—Hoosier Diaper Program client

EXPANDING DIAPER SUPPORT ACROSS INDIANA

For nearly 10 years, All-Options has been providing diapers to families in Bloomington, Indiana, and this year we were thrilled to expand the reach of our Hoosier Diaper Program! Every month, we ship diapers directly to parents throughout Indiana who have used our Hoosier Abortion Fund. Now, through a partnership with TANF and the Indiana Diaper Bank, we are also providing diapers and other essentials once a month at WIC and health department offices in local counties, including Monroe, Owen, Putnam, and more!
